ASCS Today

By Tom Conrad

On-Farm Grain Storage Survey - Grain producers in the county should have received by now an ON-FARM GRAIN STORAGE SURVEY. We are asking your cooperation in mailing these surveys back to the ASCS office in the self-addressed postage paid envelope by May 1, 1978. You may also bring them back to the office and we will help you fill them out.

Tobacco Price Support Levels Proposed - The 1978 proposed price support levels for eligible kinds of tobacco are about 6.3 percent higher than the 1977 levels.

Support levels proposed for 1978 are: 121.0 cents per pound for flue-cured tobacco (types 11-14); 124.7 for burley (type 31); 84.6 for Virginia fire-cured (type 21) and Kentucky-Tennessee fired-cured (types 22-23) and Virginia sun-cured (type 37).

The U. S. Department of Agriculture is inviting public comments on the proposed price support levels and also whether the method of supporting tobacco should continue to be through loans to producer associations.

Written comments should be submitted to the Director, Price Support and Loan Division, USDA-ASCS, P. O. Box 2415, Washington, D.C. 20013.

1978 Feed Grain, Wheat Loan Rates and Target Prices Announced - Secretary of Agriculture Bob Bergland on March 31 announced 1978 additional loan rates of $2.00 per bushel for corn and $2.25 for wheat and target prices of $2.10 for corn and $3.00 or $3.05 for wheat. Wheat will be supported with a $3.00 target price if 1978 production is above 1.8 billion bushels or less. The Secretary also announced national loan rates for the other feed grains and rye and target prices for sorghum and barley.

The 1978 loan rates and target prices and comparison with 1977 are as follows:

	Loan Rates 1978	1977
Corn	$2.00	$2.00
Sorghum	$1.90	$1.90
Barley	$1.63	$1.63
Oats	$1.03	$1.03
Rye	$1.70	$1.70
Wheat	$2.25*	$2.25

*Preliminary

1978	1977
Target Prices	
1978	1977
$2.10	$2.00
$2.28*	$2.28
$2.25*	$2.15
$3.00	$2.90
for allot. wh.	
$3.05	$2.47

The target price levels for corn and wheat are established by the Food and Agricultural Act of 1977. The preliminary target prices for barley and sorghum were determined by using the same components of production costs as used in formulating the corn and wheat targets.

Commodity loans from the U. S. Department of Agriculture give producers an opportunity to obtain cash while holding their crops for later sale. The target price protects producers from abnormally low market prices for their crop(s). To be eligible for 1978-crop wheat and feed grain loans and target price protection, a farmer needs to participate in the 1978 set-aside programs and comply with all set-aside and normal crop acreage requirements.

1978 Set-Aside - As most farmers in the county know, the signup period for the 1978 Set-Aside began on March 1. The signup is currently in effect and will continue until May 1.

There have been many farmers to stop by the ASCS office to inquire about the program, and as a result there have been quite a few to signup.

Last week I sent out a detailed newsletter concerning the program. I hope that if you have not read it, that you will. There are several options which a farmer has under the Set-Aside Program, and the newsletter explains them.

Farmers who are undecided about the program, might want to signup anyhow, because there is no penalty if you change your mind about your planting intentions. By signing up, farmers who plant the set-aside crops and comply with program regulations are assured of program benefits.

Program benefits include price support loans, deficiency payments, and disaster payments. Farmers who participate agree to take out of production one acre for every 10 planted to barley, corn, or grain sorghum, and two acres for every 10 planted to wheat for grain.

For more details, farmers should contact the ASCS office.

VA Questions & Answers

EDITOR'S NOTE: Following are representative questions answered daily by VA counselors. Full information is available at any VA office.

Q - I would like information on the Small Business Loan Program run by the VA. How do I obtain one of these loans?

A - The Vetrans Administration no longer has a Small Business Loan Program. You may wish to seek information from the Small Business Administration.

Q - I have a U. S. government "K" term life insurance policy. I have been advised to convert to an "Endowment at age 96" policy because it is less costly. I have been told this type of policy would not have the regular permanent and total disability benefit. Is this true?

A - To keep the cost of the "Endowment at age 96" policy at a low level, the regular permanent and total disability benefit was eliminated. Instead, the "Endowment at age 96" policy will be issued with no disability benefit or, at election of the insured and by payment of an extra premium, a less costly type of total permanent disability provision which allows premium waiver only may be obtained.

Q - I am a veteran drawing VA pension. I have no dependents. I will be entering a VA hospital soon for a 90-day period. Will I continue to receive my full pension during my period of hospitalization?

A - The pension of a hospitalized veteran without a spouse or child is reduced to an amount not in excess of $50 a month after two full calendar months of hospital care.

Mrs. Bryant's 4-H Club

Also attended the meeting of the Alice Kyle District of the Virginia Federation of Women's Clubs held at Liberty Baptist College. One of our members won a blue ribbon for the state. Mrs. Harmon Mann, which we are mighty proud of won one, a yellow ribbon. Mrs. Oliver Heighton. We also received two awards. One on creative arts, one on Patrick Henry Boys Plantation. Our club motto is: "Not for Ourselves, but for all." And our scripture is "If you have Faith as a grain of mustard seed, nothing shall be impossible unto you." That's the way our club feels for all.
